Final Dashboard

Task Summary

1. The **College Event Management System** Trello board was created within the **Agile Case Study** workspace.
2. Six Agile workflow lists were configured: **Product Backlog, Sprint Backlog, To Do, In Progress, Testing, and Done**.
3. Four user stories were created, with **User Registration** and **Event Schedule** selected for Sprint 1.
4. The User Registration story was broken into five checklist tasks, assigned to a member, and given priority labels and a due-date reminder.

5. The cards were moved through the Agile workflow to demonstrate **To Do → In Progress → Testing → Done**, completing the Trello task.
